JUDGE LINDSEY DECLINES.
Will Not Pay Fine for Contempt of Court at Denver.

Denver, Col., June 17.—Ben B. Lindsey, judge of Denver's juvenile court, will go to jail before he will pay a fine of \$500 for contempt of the criminal court here, he has announced. The Colorado supreme court, on June 2, denied Judge Lindsey's petition for a rehearing. The judge had 15 days to pay or go to jail, if the court insisted.

The fine was assessed when Judge Lindsey, in May, 1915, declined to tell what Neal Wright, 14-year-old ward of the juvenile court, had told the judge about the shooting of Neal's father. Neal's mother was on trial charged with murder. Neal was the only eye witness. Mrs. Wright was acquitted.

Judge Lindsey refused to testify at the trial, insisting that whatever information he possessed regarding the killing had been given him by the boy in confidence and he could not and would not violate the boy's confidence. Soon after the trial, John A. Perry, then judge of the criminal court, found his fellow-judge guilty of contempt and assessed the \$500 fine. Judge Lindsey appealed to the supreme court. The fine was upheld by a majority of the justices—three of them, however, dissenting. On June 2, last, the Colorado supreme court denied Judge Lindsey a rehearing.

Judge Lindsey announced that in refusing to pay the fine he is not acting upon a personal point of view but considers that as the Denver juvenile court is one of the oldest in the United States, all other courts look to it to uphold its rights. And one of these is that a relation of circumstances given in confidence to a juvenile court judge is not to be used in any other proceedings.

The judge has received letters from many of the judges throughout the United States urging him to maintain his stand. Various children's agencies have offered to pay the fine for him.

"No matter what the supreme court decides, I still believe and will always believe that what Neal Wright told me was in strictest confidence and I would have been unworthy to hold the position I now hold if I had testified," said Judge Lindsey. "The fact that four justices of the supreme court say I was wrong does not make it so. I am not going to pay that fine, because if I did I would admit I was wrong."

Neal Wright, the boy involved, enlisted in the army at the beginning of the war and now is serving in France.

KRONSTADT SET ON FIRE

And Seven Bolshevik Warships Have Hoisted the White Flag

WILL SURRENDER TO THE BRITISH

The White Guards Will Be Able to Advance on a Wide Front

London, June 17.—The North Russian general staff directing operations against Petrograd reports the fortress of Kronstadt, on the Gulf of Kronstadt, northwest of Petrograd, to be on fire, according to a Heisingfors dispatch to the Daily Mail, which was filed on Sunday. Seven Bolshevik warships have hoisted the white flag, the dispatch states, and will surrender to the British squadron operating in the Gulf of Finland. Several forts near the fortress of Kronstadt have also raised the white flag, it is said.

The capture of the fort of Krasnaya-gorka, across the bay from Kronstadt, the occupation of which by White Guards was announced from Stockholm yesterday, will, it is said, enable the North Russian force to strengthen its thrust against Petrograd and advance quickly on a wide front. Bolshevik garrisons near Krasnaya-gorka went over to the White Guards yesterday. The North Russian force has taken during the present campaign 22,000 prisoners and 87 cannon.

FIGHTERS TO HAVE VOICE IN PICKING THE REFEREE

Willard and Dempsey to Be Consulted—Willard Gets Into Heavy Action, Knocking Out His Sparring Partner.

Toledo, Ohio, June 17.—Jesse Willard and Jack Dempsey will have a voice in selecting a referee to judge their heavyweight championship contest here July 4 despite the prevailing impression that the third man in the ring will be chosen by the army, navy and civilian board of boxing control. This developed today when the board, in accepting Promoter Rickard's invitation to pick the officials for the contest, advised that both boxers be consulted before a definite selection is made.

Willard said today he did not approve the suggestion to have two judges outside the ring in addition to the referee to decide the contest. The champ said he would prefer to accept the decision of a referee, because the judges, viewing the contest from outside the ring, probably would not be of the same opinion as the referee and their stand might prove embarrassing.

Willard changed his tactics in his workout yesterday, and promised to repeat the performance to-day, much to the discomfort of his sparring partners. Instead of handling his sparring mates gently as he did last week, the champion worked more like Dempsey yesterday than he had ever done before and showed himself a punishing hard hitting fighter. Jack Heinen, the Chicago heavy, was practically knocked out twice yesterday in the first round of the workout. He was upset with a right-hander to the chin and after getting a minute's rest went to the canvas again when Willard landed another stinging right to the jaw.

LIFT OFF CORNS WITH FINGERS

Doesn't hurt a bit and costs only few cents

You'll laugh. Apply a few drops then lift sore, touchy corns right off. No pain. Yes, magic!
A few cents buys a tiny bottle of the magic Freezone at any drug store. Apply a few drops of Freezone upon a tender, aching corn or a callous. Instantly that troublesome corn or callous stops hurting, then shortly you lift it out, root and all, without any pain, soreness or irritation. These little bottles of Freezone contain just enough to rid the feet of every hard corn, soft corn, corn between the toes, and the callouses on bottom of feet. So easy! So simple. Why wait? No humbug!—Adv.

GEO. R. WALES OF VT. ON CIVIL SERVICE BOARD

Appointment Sent to the Senate Yesterday By President Wilson—John Skelton Williams Reappointed Comptroller of Currency.

Washington, June 17.—Among scores of nominations received by the Senate yesterday from President Wilson were those of John Skelton Williams, to succeed himself as comptroller of the currency, and Norman Hapgood of New York to be minister to Denmark. These were among hundreds which failed of confirmation in the last Senate.

Other nominations included Richard Crane, former private secretary to Secretary Lansing, to be minister to Czechoslovakia; Hugh S. Gibson, to be minister to Poland; Henry M. Robinson of California, to be a member of the shipping board; George R. Wales of Vermont, to be civil service commissioner.

A "GENUINE AMERICAN TRICK."

When Americans Saw Cardinal Merry Del Val Without Invitation.

Rome, June 17 (Correspondence of the Associated Press).—Cardinal Merry Del Val laughed over what he termed "a genuine American trick" when a group of American soldiers and sailors visiting the Vatican under the direction of Rev. Father Edward Wallace of Brooklyn, N. Y., who served with the 80th division, brushed aside formalities, ejected the liveried watchman at the cardinal's palace and gained an audience with the prince of the church without either invitation or announcement.

The men were right—being in the Vatican when Father Wallace pointed out Cardinal Merry Del Val's residence.

"Let's call on the cardinal," suggested a Philadelphia lad serving with the Keystone division. They all agreed and bolstered up their claim to call by the fact that the cardinal had visited America and this would only be in the nature of a return call from hosts of his.

Headed by Father Wallace, they met the watchman in his varicolored uniform and halberd and made known their mission.

"But you cannot call upon the cardinal except by invitation," said the guard. "We do not use invitations to call upon one another in America," returned Father Wallace in Italian. "All of us are Americans and Cardinal Merry Del Val will understand. He knows our customs for he has lived in America."

The guard accepted the situation and made known the identity of the callers to the cardinal who ordered the men shown up to the reception rooms, where he went to meet them.

"I am so glad to see you, gentlemen," he said to them. "It is not often people get to see me, but you have done it by a genuine American trick, which I enjoy immensely. I am always glad to see Americans."

SUGAR COMING TO NEW YORK

At Rate of 40,000 Tons a Month from Porto Rico.

San Juan, June 16.—Shipments of Porto Rican sugar to New York will hereafter go forward on the original basis of 40,000 tons a month, say the latest advices to the Sugar Producers' association from the board of equalization of the United States shipping board. Shipments of sugar are now being forwarded regularly after a complete cessation for three weeks in April.

Three centrals which have so far reported their output of sugar to the association, show less than their estimated production by about 20 per cent. According to the latest figures of the Sugar Producers' association, less than half of the sugar so far ground throughout the island has been shipped. Of the 2,291,088 bags manufactured, 1,033,899 bags had been shipped up to May 11, while 83,491 bags had been sold for local consumption, leaving a balance on hand in the island of 1,173,689 bags.

CZECHS BEGIN AN OFFENSIVE

And Have Captured Several Villages from Hungarian Reds

MUCH AMMUNITION IS ALSO SEIZED

The Czechs Are Under Command of Gen. Henocque, French

Geneva, Monday, June 16.—Czech forces, under command of General Henocque of the French army, have begun a counter offensive against the Hungarian soviet troops and have captured several villages after ten hours of fighting, according to a Prague dispatch received here. Two cannon, several maxim guns and a quantity of ammunition are said to have fallen into the hands of the Czechs.

The war minister of Czechoslovakia has decided to increase the army to 14,000 officers and 243,000 men.

TUBERCULOSIS GREATEST AFTER-WAR ENEMY

Relentless Fight Against White Plague During Reconstruction Years Urged By Washington Health Expert.

Atlantic City, June 17.—With half the world left bankrupt by the war, tuberculosis must be considered not only as a deadly scourge to be feared, but also as one of the greatest economic enemies, declared Walter S. Uford of Washington, in addressing the annual meeting of the National Tuberculosis association which closed here today.

"Sickness," he said, "is the greatest single factor in bringing about poverty and dependency. Among the various ills found in dependent families none plays so big a part as tuberculosis."

"The public must be aroused to grapple with the problem of tuberculosis as it now affects our civilian population, on broad lines of health reconstruction. For this purpose departments of health everywhere should be charged with the control of tuberculosis as a contagious disease. These departments should not only be given legal authority to cope with the problem but should be provided also with the necessary funds to deal with the disease, in its contagious stages, as a menace to the family and the neighborhood."

In a plea for health insurance John A. Lapp, former director of the Ohio health insurance commission, pointed out that there can be no solution of the tuberculosis problem among workmen without it. "Men cannot stop work long enough to take treatment," he said, "because, as is well known, the great mass of workmen are living only a few days or a few weeks away from actual want. Some means must be devised to enable people to stop work and to receive adequate medical treatment. There are only two possible ways to do it, one, through charity; the other, through health insurance."

Startling results in the discovery and classification of tuberculosis cases in Framingham, the Massachusetts town which has been taken over bodily for a health demonstration, were described by Dr. Donald B. Armstrong, executive officer, in charge of the work. "Intensive examinations by trained tuberculosis experts," he said, "revealed many cases not found by the routine examinations of local physicians and visiting nurses. This condition probably holds true in every other community in the country."

"The public attitude toward tuberculosis must be changed," said Miss Mary A. Myers of Indianapolis, in an address on educational campaigns. She pointed out that formerly the masses of people

thought the disease was hereditary and that nothing could be done about it.

"Now," she said, "due to educational work, there are few grown-ups or children in the country who do not know tuberculosis is a preventable and curable disease."

TUNBRIDGE

Mrs. Charles Tracy, accompanied by her sister, Florence Osborn, returned to her home in Slatersville, R. I., last week. The reception to returned soldiers on Thursday evening drew the largest crowd ever assembled at the town hall. The speaking, music and all details were admirably carried out.

Operations have begun on the new schoolhouse for No. 3. Ground is broken and forms set up for foundation. F. W. Spaulding is foreman and W. T. Noble is in charge of cement work.

Harry Lyford has sold his farm to Leon Giles and sells personal property at auction Saturday, June 28. He has purchased of A. A. French the Wight store and is to conduct a general store.

Earle F. Howe has purchased a light truck for road and general work. Miss Pinney, pianist, of Randolph, has a large class in town, beginning the term last Thursday.

James Dick is our latest arrival from the overseas forces. When his division, the 26th, sailed, James was confined to a hospital in France, where, from present appearances, he was well treated.

PORTO RICO STRIKE FELT.

Nearly All the Porto Rican Cigars Are Out of American Market.

San Juan, June 16 (Correspondence of the Associated Press).—Porto Rican cigars are practically out of the United States market as a result of a strike of cigarmakers and tobacco workers which has been on since the first of January. Approximately 15,000 employees are idle and all surplus stocks of cigars in the United States are reported to have been exhausted.

The making of cigars is the largest manufacturing industry in Porto Rico and the continued idleness of the cigarmakers here is causing much hardship among them. Last year one company alone manufactured 175,000,000 cigars for the American market. This com-
